Print in Flying Colours

Dive into a world of exquisite image quality. The devices in this new series offer superb definition, both in monochrome and full colour. Not only will time-pressured users benefit from the **Super Resolution** feature, that improves the quality of images at the touch of a button, but they can also opt for **High-Impact** and **Vibrant Printing** (4800 x 1200 dpi resolution).

Alongside dramatic colour, crisp black & white, and detailed graphics printing, these devices offer top-of-the-range scanning, input, and professional finishing options. In short, this new series goes beyond the requirements of even the most demanding workplace.

For outstanding image reproduction, look no further.

New Heights of Productivity

Now more than ever, companies are seeking devices that are more agile and robust, and ever-smarter ways of working. These new devices empower companies to maximise productivity like never before.

Re-energise the Way You Work

High Performance

Fast print and scan speeds for maximum efficiency.

Paper Capacity

Less time filling paper trays means more time for quality work.

Digitisation

Transform your workflows faster while pivoting to a paperless workspace.

Durability

Long-lasting toners ensure professional quality that lasts.

Proven Quality

Our devices have earned industry recognition for their reliability.

Optimal Security

Enjoy some of the most advanced security technology on the market today.

This new TASKalfa series takes a holistic approach to workflows in the **modern workplace**.

By addressing and tackling pains at each stage of the document lifecycle, we have delivered a range of devices for today's businesses. A TASKalfa device can help turn past weaknesses and blind spots into **new value-adding opportunities for your organisation**.

We have taken the complex and made it simple. As it should be.

An Effortless User Experience

Over-complicated printer controls drain valuable time and can impact your overall productivity. The new TASKalfa series puts an end to that with a user interface that has been totally redesigned to **minimise confusion** and **maximise your capabilities**, for printing that is easy and intuitive.

Meet the New User Interface

With standard colours and easy to understand icons, carrying out tasks at the printer has never been simpler.

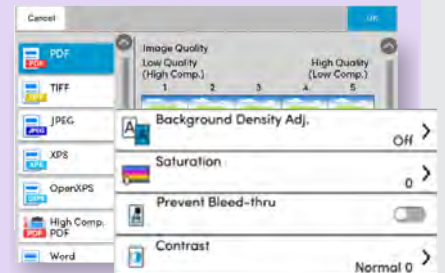

Simple

Standardised icons and graphics make navigation intuitive and easy.

Intuitive

Emphasise important information and use gestures to select target items.

Efficient

Work quicker with fewer steps, along with quick-switch settings.

Higher Risks Mean Better Solutions

Security is a greater concern than ever before, with more large-scale cyberattacks hitting the headlines every day. Businesses must preemptively prepare for potential risks by equipping themselves with solutions that ensure data and networks are constantly protected.

These new devices come with a whole range of new security enhancements:

Certificates

Devices keep themselves up to date with latest security certificates, and use encrypted communications to validate their certificates. (SCEP & OCSP/CRL).

Encryption

Protect emails with authentication, digital signatures and encryption. A faster way to keep data secure in your network (S/MIME & TLS version 1.3).

Device Management

You will have the ability to log security events and monitor for malware, data leakage and other security breaches. (SIEM).

Kyocera's up-to-date security compliance shows our commitment to the highest standards of information security management.

Finish in Style

With the new TASKalfa A3 series, **it's your documents your way.**

Today's workspaces demand greater agility and media flexibility, and Kyocera has risen to the challenge with brand-new finishing capabilities for 60/70ppm devices.

ZF-7100 Z-Fold Option

This functionality enables you to add "z-folded" sheets into your documents. This includes diagrams, charts and other larger sheets that need to be folded into a 8.5" x 11" sized booklets. This can also be particularly useful for standalone applications when producing invoices, marketing flyers and brochures.

Staple Finishing Option

These new devices boasts 4,000 sheet staple finisher options that support 65 and 100 sheet stapling and 2/3 hole-punching for clean, professional looking output so that more jobs can be kept in-house even in the most demanding of work environments.

IS-7100 Inserter Unit Option

This presence of two trays enables users to feed pre-printed pages as potential front or back covers or sheet inserts. The Inserter Unit avoids the need for pre-printed sheets to go through the high-temperature fusing process at the MFP, thus ensuring that the pre-printed sheets won't get destroyed or melted.

Evolving Our Future

Keep your productivity high and sustainability higher.

Kyocera was built upon the principle of doing the right thing as a human being. In everything we do, we try to balance ecology and economy, and seek to make all of our growth sustainable.

This means that you can rest easy knowing that, while you're maximising productivity and efficiency within your business, you're also reducing your environmental impact.

Our TASKalfa devices makes it possible to combine eco-friendly printing with greener and more intelligent digital processes, so that your daily work has a reduced carbon footprint. Your growth doesn't have to cost the environment.

**We do more than just talk about sustainability.
Our actions speak for us.**
